I. INVESTMENT OFFER LETTER

Re: Investment Offer - MobiRides Pre-Seed Round

Dear Boikhutso L. Malela,

Thank you for your interest in MobiRides. We are pleased to offer you the opportunity to invest in our pre-seed round as a Tier 1 Angel Investor.

Key Terms

- **Investment:** Your funds will support Platform development, Play Store launch, building vehicle inventory (Host onboarding), & our Rent2Buy pilot
- **Timeline:** Funds transfer within 5 business days of signing.
- **Documents Required:** Signed Agreement, Proof of funds.

Company Highlights

- Botswana's first P2P car-sharing platform.
- Proven product-market fit with 119:1 LTV:CAC.
- Strong founding team with 305% YoY growth.
- **15-month runway post-funding**

Your 13x Discount

As a Tier 1 Angel, you are entering at a negotiated **P3,700,000 pre-money valuation**. While this provides you with a 7.5% stake today, it is critical to view this against our benchmarked **triangulated valuation of \$4.1M (approx. P55,000,000 BWP)**.

Based on our technology stack, our 119:1 LTV:CAC ratio, and our market traction, you are receiving a **13.75x discount** on the international "Fair Market Value" of the company. This discount is a strategic premium we are offering you for being the second Tier1 Investor during our most consequential growth sprint.

II. YOUR INVESTOR ADVANTAGE (WHY A SAFE?)

We have chosen a **SAFE (Simple Agreement for Future Equity)** as the investment vehicle because it provides significant advantages to you as an early-stage investor:

- **Most Favored Nation (MFN) Protection:** Our SAFE includes an MFN clause. If we issue any future securities to subsequent investors on better terms (e.g., a lower valuation), your SAFE will automatically adjust to those better terms for additional shareholding. You are protected against any "downside" pricing in the remainder of this round.
- **Anti-Dilution Guardrails:** By setting a **P4,000,000 Valuation Cap**, we have contractually guaranteed that your P300,000 will convert into **at least 7.5%** of the company upon the next financing event, regardless of how high the valuation climbs in the future.
